

Gator than Less than

Supplies

- Set of Gator Cards
- Gator game board

Set up

Shuffle the cards then each player cuts the deck. The player that selects the lower number goes first. The order of cards from highest to lowest goes gator card, greater than card, 9, 8, 7, 6, 5, 4, 3, 2, 1, 0, decimal and less than.

Round play

Shuffle the deck one more time and place the cards on the pickup pile. The player who selected the lower number takes their first card

If it is a number card or a decimal, they place it on one of their open swamp banks.

If it is an operation card, they place it in the operation pile

Gator cards are wild cards a player can put it on any of their swamp banks and at the end of the round it can be any number the player chooses.

If a player has all of their swamp banks filled and the other player does not for their turn, they are able to take a card from the top of the deck however they must replace one of the cards on their swamp bank and put the card that was on their swamp bank in the discard pile.

If there is a card in the discard pile a player can pick the top card up to use on their swamp bank.

A round is over when both players swamp banks are full.

Deciding a winner

If the symbol on the top of the operation pile is the greater than symbol the player with the greater number wins the round If the symbol on the top of the operation pile is the lesser than symbol the player with the lower number wins the round.

Then the cards are shuffled, and another round is player with the opposite player going first.

First player to 3 tokens wins the game.
